

Cochlear Science and Research Seminar

INVITATION

**Bilateral cochlear implantation
Prague, 10-11 March 2016**

Hear now. And always

This seminar will bring together hearing researchers from across the EMEA region, working actively to treat patients with bimodal and bilateral cochlear implant hearing solutions.

TIME

Start: Thursday, 10 March 2016, 12:00

End: Friday, 11 March 2016, 14:00

VENUE

Prague Marriott Hotel

V Celnici 8, Prague 110 00, Czech Republic

KEY TOPICS

- Benefit of binaural hearing: lateralisation, localisation and reducing hearing fatigue
- Surgical and audiological implications for sequential versus simultaneous implantation
- Implementation and referral outcomes from universal neonatal screening programmes
- When and how to recommend transitioning from bimodal to bilateral cochlear implants
- Reimbursement considerations for doctors, patients and reimbursers

CHAIR

Jiří Skřivan, MD PhD

Motol University Hospital, The Second Medical Faculty, Charles University in Prague, Czech Republic
