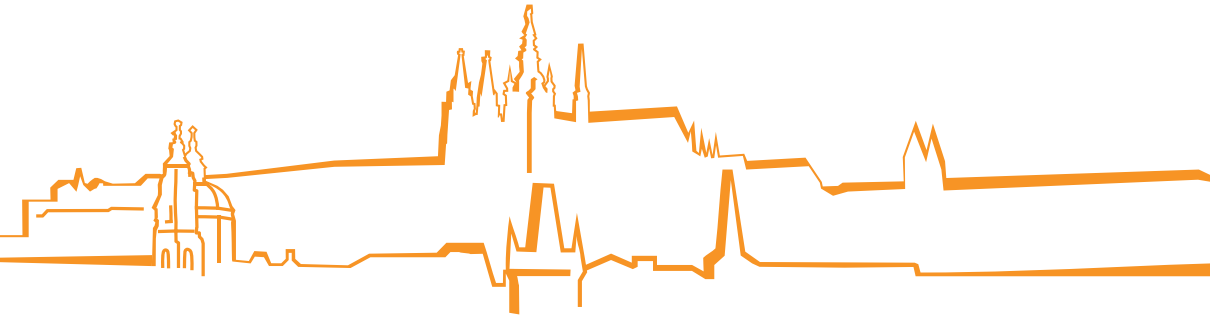
Discover how hearing simply got smarter



Cochlear technology symposium

We would like to announce a dedicated implantable hearing solutions symposiums at the Prague New City Hall. The aim of the symposium is to share industry insights and our product advancements. This will include novelties across our entire product portfolio which consists of: Cochlear Implants, Implantable Bone Conduction Solutions (Baha) and Acoustic Implants. Leading international professionals will join the symposium to share their first experiences with the new technologies.

Date: 25 September 2013
Duration: Full-day (arrival recommended on Sept. 24 and departure on Sept. 26)
Venue: The Prague New City Hall
Mariánské námesti 2
Prague 1, Czech Republic

The wonderful world of implantable hearing solutions is moving forward in big steps. We would be delighted welcoming you in Prague to discuss the latest developments.
