

Dear friends, dear members of UEP,

Hope you are fine and doing well,

UEP has been working actively on giving information, recommendations and guidelines in terms of phoniatic and laryngological activities in relation to the current COVID-19 pandemic. We also aim to **know of adjustments done to health-care service delivery and infection control measures among phoniaticians and ENT specialists during the COVID-19 pandemic**. This is the reason we initiated a survey aiming to get enough knowledge on this issue.

The survey was initiated by Mariam Shadi, Reham AbdelWakil and Elham Magd from Egypt and with collaboration from Christina Pflug, Germany and me.

I hope you will be able to give 10 minutes of your time to reply to it.

Kindly reply
