

SAVE THE DATE

25th Czech-German ENT Days

1–2 October 2027

Pre-Course Hands-on Sialendoscopy
30 September 2027

Dear Colleagues, Dear Friends of Otorhinolaryngology – Head and Neck Surgery,

We are delighted to announce that the 25th Czech-German ENT Days will take place in 2027 at the University Hospital Jena, Germany. This prestigious bilateral scientific meeting has brought together leading specialists in otorhinolaryngology and head and neck surgery from the Czech Republic and Germany — and beyond — for over two decades, and we are proud to continue this tradition in Jena.

The congress will offer a rich two-day scientific programme featuring state-of-the-art lectures, expert discussions, and interactive sessions covering the full breadth of our specialty. It provides an outstanding platform for scientific exchange, networking, and fostering the long-standing friendship between the Czech and German ENT communities.

Exact dates, registration details, and the full scientific programme will be announced in due course. We encourage you to save the date and look forward to welcoming you to Jena.
